

ATMOSFERA & ARTPOLE: FORESTS OF OUR HEARTS

VISION OF THE PROJECT

The **Forests of Our Hearts** was a collaborative project between **Atmosfera Festival (Slovakia)** and **ArtPole Agency (Ukraine)**, aiming to create a multidisciplinary installation, 'Forest', presented during the three-day festival in Hontianske Nemce (Slovakia) in August 2024. The artistic concept was developed jointly by a tandem of curators from both countries, involving Ukrainian and Slovak artists, architects, and designers.

The project included expert talks about natural heritage at risk at 'Discussion forest' and a community-focused performative lunch 'ForRest' held around a big table under an old oak - the heart of the festival. The performative picnic was done in co-operation with "Peace for Ukraine", a Slovak not-for-profit organisation. The project will be well documented and shared on the subpage of the Atmosfera festival and ArtPole for further dissemination.

From a small regional event, the three-day Atmosféra has professionalised over 12 years and became a well-recognized event on the cultural map of Slovakia. Two years in a row, in 2021 and 2022, the festival was mentioned as one of the top cultural events of the year in Slovakia in the ranking of independent press - Dennik N.
