

ARCHITECTURAL AND ARTISTIC RESEARCH RESIDENCE "ANGLE 772"

VISION OF THE PROJECT

The purpose of the project was to reveal the potential of cultural heritage to restore identities and promote sustainable development in small communities. The project involved conducting a pilot programme of architectural and artistic research in cooperation with the Community Social Centre "Hata-Mazanka" and "Nazari Voitovich's Art Residence". This collaboration aimed to establish cooperation between the communities of Kharkiv and Ternopil regions.

As part of the project, an art exhibition was created by rethinking modern mediums and archaic construction traditions, as well as the cultural heritage of Krasnokutsk and Zbarazh communities. The work was presented to provide an opportunity for exchanging experiences in rethinking cultural heritage for the sustainable development of Ukrainian small communities. The results of the project were published with open access online.
