

The vision of the projects

Vidnova aimed to rehabilitate a community that had survived Russian occupation, addressing complex needs for physical recovery, economic growth, social cohesion, and environmental security.

The purpose was to stimulate community recovery through an integrated approach covering physical infrastructure restoration, economic resuscitation, restoration of social ties, and environmental sustainability. The project aimed to activate community participation in the recovery process, increasing stability and self-sufficiency.

Meet the Key Partner

NGO **Zmist** actively works in the field of development of culture and youth leadership in Ukraine. All participants have different backgrounds, which allows them to comprehensively implement educational and cultural projects. The co-founders of the NGO are Melnyk Artem, architect and communications specialist who has experience in conducting educational activities for youth and students, Nekrasov Andriy, a norm-project expert who participated in a music conference and worked on legal support of the film; Tatiana Petrakhevich, the owner of a private school and the author of the project "Art-Balcon"; Kuzmina Darya, a scientist who worked as a manager of an illustrators and animators; and Olifir Konstantin, a lawyer who conducted master classes on writing paintings in the style of suprematism.
